Summary:

The reconstituted portfolio will have 28 constituents, weighted as per the methodology.

The US Global Go Gold and Precious Metal Miners Index is a 28 Stock index designed to capture the performance of companies engaged in the production of precious metals and minerals either through active (mining or production) or passive (owning royalties or production streams) means. Precious metals companies that rely primarily on debt to finance their business are eliminated from the index. The index uses a multi-factor, rules-based model and consists of common stocks listed on well-developed exchanges across the globe.
